Jenny,

Andrew Hartten had informed us that Chemours is testing each of the three Washington Works PWS wells **every 2 weeks**. Per our latest request, they will be sharing the sampling results with us.

Hi Roger and Kevin,

Sorry to bother you again, but may you please verify this statement that my colleague added to our write-up:

"Chemours is currently testing GenX on a weekly basis at each of the 3 PWSs which serve the Washington Works facility."

Thank you,  
Jenny
